### Broad Street Clinic – Erin Fitzpatrick

Erin Fitzpatrick gave an excellent overview of Broad Street Clinic – a free clinic for those who qualify. Broad Street Clinic serves those who have no insurance and have at least one of the following medical conditions: diabetes, high blood pressure, heart disease, lung disease, or thyroid disease. They currently serve 875 patients. What makes the “free” clinic work

is that most of the personnel are volunteers: doctors, nurses, nurse practitioners, pharmacy techs, office workers – all volunteers. They also have specialty clinics: women’s care, eye care, dental and dental hygienist care. A Dental Bus, also staffed by volunteers, (our own Dr. Eure among them) provides extractions and fillings. The hospital provides lab work, x-rays and EKGs. A pharmacy provides prescriptions at no cost. They are supported by local donations and grants—no state or fed money. Should they be on your charitable contributions list?
