## Morehead City Rotary Clubs to Support School Project in Kolhapur, India

Last Week's speaker was Brian Boyette. Brian presented a program about a school project the district is sponsoring in Kolhapur, India. The school is for children with special needs and is located in a poor mountain district where the average worker makes less a dollar per day. Students receive training in making candles, chalk, office files and wormculture. The training is intended to help them become employed in the future. The school needs certain amenities to provide these students with a basic education. The district has applied for a grant to purchase computers, bunk beds, safe drinking water, dining tables/chairs, and textbooks. The project will be funded through a Rotary district grant. No additional assessments from local clubs is necessary.
