ROTARY FACTS

Rotary Health Programs:

District 7730.....We will "Lend A Hand"

With its vast international grassroots network, Rotary initiates global and community-based projects to address a wide range of health risks that threaten the well-being of those without access to adequate health care. Rotary's flagship public health project, PolioPlus, aims to immunize children against the poliovirus and eventually eradicate polio from the world.

Rotary received the William and Melinda Gates Foundation Award for Global Health

for its major and lasting efforts to improve public health worldwide.

In 1985, Rotary club members worldwide vowed to eradicate polio. Since then, Rotary has committed more than US\$500 million and countless hours of volunteer work to help immunize an estimated two billion children throughout the world. This commitment to end polio represents the largest private-sector support of a global health initiative to date.

FROM JOHN NELSON TO 'ABDUL GEER'!

Hmmm.....

Why is *abbreviation* such a long word?

God put me on this earth to accomplish a certain number of things...right now I'm so far behind that I'll probably never die!

The secret to life is honesty and fair dealing. If you can fake that, you've got it made! -Groucho Marx
