**Michelle Query,
Director of Economic
Development Council**

Director Query Touts Role of Economic Development Council

Director Query said the mission of the Economic Development Council is to recruit new environmental and compatible industry and business, retain and grow the industry and businesses that currently exist within the county. Carteret County's economic development strategy has emphasized the recruitment of full-time residents to mitigate the challenges of a seasonal tourism economy, and the county has been successful in attracting retirees and seniors. Query said that it was also important to implement STEM training in schools and develop

Technology training and support facilities at the community college that are compatible with the coastal environment. Carteret County should also leverage its significant tourist exposure to attract desirable business. It would also be advantageous to develop a brand for Carteret County and utilize that brand for the promotion of Carteret County to prospective business within and those that may locate in Carteret County in the future.
